

MANITOBA INDIGENOUS CULTURAL EDUCATION CENTRE INC. COMMUNITY CONNECTION PROGRAM INFORMATION SHEET

The Community Connection Program promotes knowledge and awareness of Indigenous cultures through different mediums, including presentations, activities, videos, and discussions.

Below we have listed a selection of workshops and presentations that we have offered groups through our Community Connection Program. If there is something specific you or your group would like to learn, discuss, or participate in we will do our best to accommodate you.

For many of our presentations and workshops MICEC arranges for specific Elders, teachers, and community leaders to guide these sessions. In most cases there will be a minimal charge associated with a presentation or activity request as we provide an honorarium to these individuals for their time and expertise.

If you are interested in learning more about this service please contact us by email at info@micec.com or by phone at 204-942-0228.
